100'

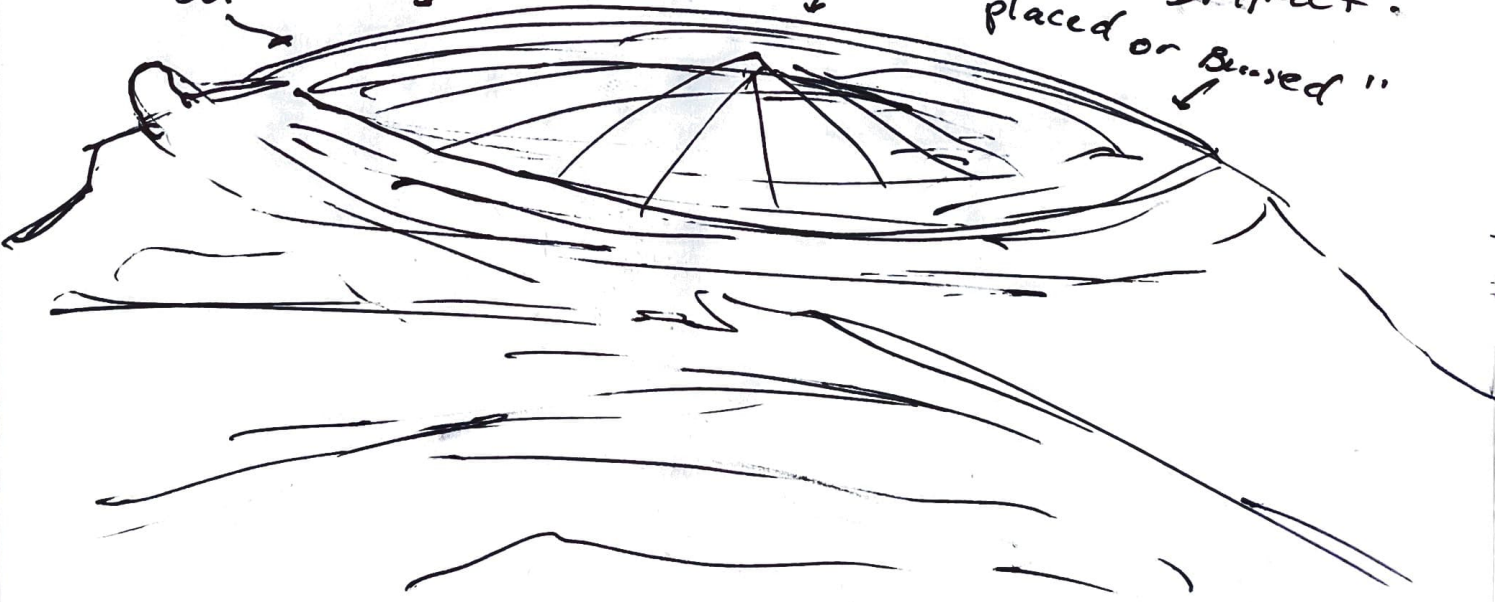

Quick summary
FROM PG 6

(A) Smaller roller car type - STRUCTURE
Reminds me of a MINERAL-MINER CART

(B) FLAT / CURVED - like structure - kind
of "HANGER - looking - A quick
port - type purpose.

(C) Drop-off / loading like zone of
some sort.

(D) Some kind of CANYON / hole / SCBK
SOFT - METALLIC / glassy / structure
Asteroid
Impact.

Summary

8:59 AM CT

THIS TARGET CONSIST OF THE FOLLOWING
GESTALT & IMPRESSIONS.

STRUCTURE

Bio-organic

ENERGY

+
MOTION.

STRUCTURE - "1957," AOC BK - Roswell structure
of interest.

structure was multi-colored.

Dimensions are c/cck, but

4 - 6 FT IN HEIGHT

7 - 8 in diameter.

CRASH SENSE.

Inside the structure seemed
to somehow be much larger -

I have a feeling that I

was viewing/perceiving a

location different than the

structure that crashed.

Structure
continued.

- IF I AM incorrect with my perceptions - that is okay, but it seemed that the inside structure HAD levels - for different departments of study.

mainly geared towards science AND research. "PODS" - for subjects to rest or be preserved - to small rooms that seemed to be used as presentation/brief like.

Bio Organic
&
ENERGY

} WITHIN structure I Found three bodies. THE 3 bodies WERE much more "vibrational," THAN THE average humanoid.

Almost part ethereal - like a component of our blood / WATER RATIO varied in ways I can not explain -

Bio/ENERGY
continued.

} ABSOLUTELY NO SUGAR. Blood
OF THE SUBJECTS WAS MORE
"mercury / plasma / 4TH - 5TH
physical state (liquid, gas, solid, plasma)

I believe that the technology
THAT crashed was powered by
A "polar-opposite," or brother/sister
OF electricity. As if an amplifier
of conscious - electro-magnetic
is found within their genetic
structure - and by connecting ~~to~~ this
energy to the technology its
possible to become almost a
Cyborg-type. Mind, body, Spirit & ELEMENT.
ELEMENT BEINGS IN reference to
our periodic scale of elements.

THE BEINGS showed fear & compassion
for each other before they died.
NOT IN A HUMAN funeral sense,
But A "mission was unsuccessful."
